

SHEET-TO-SHEET

CHECKERED EMBOSSING MACHINE

Industrial sheet embossing equipment for producing checkered, diamond and anti-slip metal sheets with controlled pattern formation.

A99 EMBOSSERS • MANUFACTURER OF INDUSTRIAL EMBOSSING MACHINES, EMBOSSING ROLLERS & EMBOSSED SHEETS

SHEET WIDTH	SHEET THICKNESS	DRIVE	CONFIGURATION
1000 / 1550 mm Up to 3000 mm	1–6 mm*	3-Phase Electric	Sheet-to-Sheet

SHEET-TO-SHEET CONFIGURATION

Designed for customers processing individual sheets. Machine configuration is selected around material, thickness, width, pattern, embossing depth and production requirement.

A99 ENGINEERING APPROACH

Heavy-duty construction, precision embossing rollers and adjustable pressure are combined for repeatable pattern formation. Custom roller patterns and machine configurations are available.

MACHINE MODELS • CONFIGURATION • PRICING

Buyer reference table for selecting the required sheet-to-sheet configuration. Model designation can be finalized against the actual production requirement.

MODEL	MACHINE TYPE	SHEET THICKNESS	SHEET WIDTH	PRICE
A99-CHP-EMM-1250-ST1-2	Sheet-to-Sheet	1–2 mm*	Up to 1250 mm / 4.1 Foot	₹ 26,50,000 / \$ 27,800
A99-CHP-EMM-1550-ST1-2	Sheet-to-Sheet	1–2 mm*	Up to 1550 mm / 5 Foot	₹ 31,50,000 / \$ 33,100
A99-CHP-EMM-1250-ST1-3	Sheet-to-Sheet	1–3 mm*	Up to 1250 mm / 4.1 Foot	₹ 35,00,000 / \$ 36,700
A99-CHP-EMM-1550-ST1-4	Sheet-to-Sheet	1–4 mm*	Up to 1250 mm / 4.1 Foot	₹ 44,00,000 / \$ 46,200
A99-CHP-EMM-1550-ST1-4	Sheet-to-Sheet	1–4 mm*	Up to 1550 mm / 5 Foot	₹ 47,00,000 / \$ 49,200
A99-CHP-EMM-1250-ST1-6	Sheet-to-Sheet	1–6 mm*	Up to 1250 mm / 4.1 Foot	₹ 50,00,000 / \$ 52,350
A99-CHP-EMM-1550-ST1-6	Sheet-to-Sheet	1–6 mm*	Up to 1550 mm / 5 Foot	₹ 60,00,000 / \$ 62,800

Pricing is confirmed according to machine width, thickness range, roller pattern, embossing depth, drive/controls and final configuration. Detailed commercial quotation is issued on request.

*Thickness and configuration are subject to material and application requirements.

TECHNICAL SPECIFICATIONS

SPECIFICATION	DETAIL
Sheet Material	CR • HR • MS • SS • GI • Aluminium • Other suitable metal sheets, subject to material and thickness
Maximum Sheet Width	Up to 3000 mm; standard widths 1000 mm and 1550 mm
Embossing Thickness	Approx. 1.0–4.0 mm, material-dependent
Production Speed	Varies according to material, thickness, pattern and embossing depth
Embossing Depth	As per client requirement / application
Roller Material	K310
Drive / Power	3-Phase electric
Controls	PLC or panel board
Pressure System	Adjustable high-tonnage hydraulic / manual system
Safety Features	Emergency stop and guards
Machine Weight	Approx. 7–15 tons, configuration-dependent
Power Supply	3-Phase

Pattern options: Diamond / Checkered • 1-Bar Tread • 5-Bar Tread • Stucco / Orange Peel • Custom Patterns

DELIVERY TIMELINE

40ï 60 WORKING DAYS

Manufacturing to Dispatch

Timeline starts after order confirmation, approved specifications and required inputs.

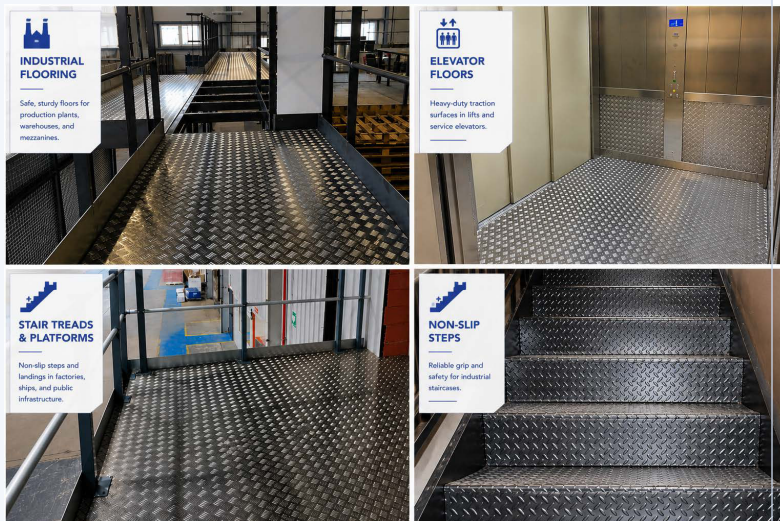

APPLICATIONS • MATERIALS • SUPPORT

INDUSTRIAL APPLICATIONS

- Stair treads & platforms
- Industrial flooring
- Truck & trailer beds
- Elevator floors
- Construction & fabrication

Suitable for durable anti-slip and traction metal sheet applications.

MATERIAL COMPATIBILITY

- ✓ CR — Cold Rolled
- ✓ HR — Hot Rolled
- ✓ MS — Mild Steel
- ✓ SS — Stainless Steel
- ✓ GI — Galvanized Iron
- ✓ Aluminium
- ✓ Other suitable metals, subject to thickness and application

KEY MACHINE FEATURES

- ✓ Heavy-duty industrial frame
- ✓ Precision-engineered embossing rollers
- ✓ Adjustable pressure control
- ✓ Standard 1000 / 1550 mm widths
- ✓ Configurations up to 3000 mm
- ✓ PLC / panel controls
- ✓ Safety guards & emergency stop
- ✓ Custom roller patterns

WHY A99 EMBOSSERS

- 20+ Years Experience
- 200+ Machines Installed
- 400+ Customers
- In-house roller manufacturing & pattern design
- Custom machine manufacturing
- Production trial before dispatch

ENGINEERING & PROJECT SUPPORT

- Machine selection assistance
- Custom machine configuration
- Roller design consultation
- Technical specifications
- Installation / commissioning support
- Spare parts & service support
- Export & shipping support
